

Nördlicher Schneeferner 1999-2006

1:5000

Based on photogrammetric analysis of aerial photos from 1999 (C. Steglich) and airborne laser scanning in November 2006 (Bavarian Office for Surveying and Geoinformation, LVG). Ice thickness determined on 11 November 2006 by radio sounding (W. Hagg, C. Mayer, S. Rudolph). Processing and Cartography: W. Hagg, C. Mayer
 Coordinate System: UTM, Zone 32 N
